

# H.D. DEGREASER

Oil and Grease Remover

## Product Description:

H.D. Degreaser is a caustic blend-based highly active, waterborne degreaser for cleaning and degreasing oil contaminated as well as greasy surfaces. It has very strong emulsifying power for a broad range of contaminants (oil, grease, lubricants, animal fats, etc). It is odorless and works well on concrete as well as ferrous surfaces.

## Features:

- Effective at eliminating oil, fats and lipids.
- Free from acids, phosphorous, silicon and aromatics.
- Helps to increase the life of metal surfaces.
- Ideal for use alongside an industrial scrubbing machine.
- Odorless, works well on concrete as well as ferrous surfaces.
- Water-based.

## Application:

Spray the surface to be degreased with H.D. Degreaser (or it's dilution) and rub the contamination loose with a hard brush. 1-part Heavy Duty Degreaser can be diluted in 5 to 20 litres of fresh water depending on surface condition. OR rub in the surface to be degreased with cloth (or sponge) moistened with H.D. Degreaser (or it's dilution). Then rinse the surface with water to remove all contaminations. Let the cleaned surface dry or blast it with dry compressed air.

## Active Ingredient:

	CAS Number
Aqua	: (CAS No.) 7732-18-5
2-(2-butoxyethoxy) ethanol	: (CAS No.) 112-34-5
Sodium hydroxide	: (CAS No.) 1310-73-2
Fatty alcohol C12-14, ethoxylated Disodium Metasilicate	: (CAS No.) 68439-46-3
Tetrasodiummethylenediamine tetraacetate	: (CAS No.) 64-02-8
Imidazolium compounds	: (CAS No.)93820-52-1

## Physical Properties:

Physical State	: Liquid.
Colour	: Colourless.
Odour	: Characteristic Odour.
pH	: 12.8 @ 20°C
Flashpoint	: N/A

## Storage:

Products shall be ideally stored in a cool, dry location in unopened containers at a temperature between 8° to 28°C (46° to 82°F) unless otherwise labelled. Optimal storage is at the lower half of this temperature range. Do not return any material to its original container to prevent contamination of unused products.
