

SCRUB

Waterless Industrial Hand Cleaner with D'Limonene and Pumice

Product Description:

SCRUB is an advanced waterless hand cleaner with the natural degreasing ability of D'Limonene as well as pumice to remove the toughest grime from your hands. SCRUB is ideal for environments where water is not readily available. SCRUB is formulated specifically to ensure your hands are not damaged due to its use, which is critically important as the other alternative cleaners that are based on petroleum distillates can cause drying, cracking, irritation, and skin-related diseases. SCRUB leaves behind a gentle citrus fragrance after cleaning.

Features:

- D'Limonene beyond its natural degreasing qualities will also leave a pleasant orange aroma on the hand.
- Does not exude any toxic fumes as compared to other options such as kerosene or oil distillates.
- Does not require water to clean off.
- Lanolin oil works to moisturize your hands after cleaning.
- SCRUB is biodegradable.
- Utilizes pumice to exfoliate pores and ensure all containments are appropriately cleansed.

Application:

1. Apply a generous amount of scrub on greasy and grime-covered hands.
2. Rub all over the hand.
3. Wipe your hands with a clean dry cloth or paper towel.

***Warning:** Wash hands with water before consuming food.

***Note:** If oil or grease stains remain, repeat the above application.

Active Ingredient:	CAS Number
Aqua	: (CAS No.) 7732-18-5
D'Limonene	: (CAS No.) 5989-27-5
Pumice	: (CAS No.) 1332-09-8
Mineral Oil	: (CAS No.) 8042-47-5
Linear Alcohol	
Ethoxylate	: (CAS No.) 68439-50-9
Lanolin Oil	: (CAS No.) 8038-43-5
